Re: Frelinghuysen For Congress Committee C00299404
30 Day Post-General Report (10/15/98 - 11/23/98)

Dear Mr. Yap:

This letter is in response to the questions raised during your preliminary review of the above referenced report. A copy of your letter is attached.

Schedule A contributions from Douglas V. Brown exceed individual contribution limits. We have written the contributor and have asked that he re-designate or reattribute the excess contribution. A copy of our letter is attached. We will report the re-designation or reattribution in the period we receive authorization.

Schedule A contributions from the Realtors Political Action Committee were reported incorrectly in regard to aggregate year-to-date totals. We have amended our report with the corrected information and submit for your review.

Schedule A contributions received after the General Election which were designated for the general were reported incorrectly. As advised by you these contributions should have been reported to be made when the committee received them, not when deposited as reported by us. A thorough review of the contributions in question; that is all contributions reported received after the General Election which were designated for the general were received by the committee prior to the General Election held November 3, 1998. The Committee has revised their procedures to report all future contributions when received, not deposited.
